

# Introduction

Al-Ufoq Al-Sham Company was established to be among the leading providers of integrated solutions in modern technologies. We work on delivering the latest surveillance, security, and communication systems, in addition to offering installation and support services for audio-visual systems, while adhering to the highest standards of quality and safety.

We always strive to provide reliable products and services tailored for companies, institutions, and medium- to large-scale projects, ensuring continuous technical support and innovative solutions that meet our clients' needs.

## Our vision

To be the first choice in the field of surveillance, communication, and IT solutions in the region, through innovation, quality, and outstanding customer service.

## Our mission

Providing comprehensive technological solutions that help clients achieve the highest levels of security and efficiency, with competitive pricing and exceptional technical support.
